

Plenary Health has carefully handpicked a team of like-minded organizations to design, finance, construct, and maintain the new state-of-the-art BC Cancer Agency Centre for the North. The Plenary Health team includes Plenary Group, PCL Constructors Westcoast, CEI Architecture Planning Interiors, and Johnson Controls Limited Partnership. Our partners share our passion to deliver this important project for the people of BC's North.

Project Development and Finance

Plenary Group, as the 100% equity provider and long term asset manager, specializes in Canadian PPP social infrastructure projects. Plenary Group's business is based on successful partnerships, a focus on project delivery and active commitment over the long term. Plenary Group has offices in Toronto, Vancouver, and Edmonton and is a leading developer and operator of PPP projects. Plenary Group features specialist healthcare, construction, and finance personnel and has as its sole focus the delivery of the BCCA Centre for the North on time and on budget and its successful physical operations over the next 30 years.

Construction

PCL Constructors Westcoast is a member of the PCL family of companies, Canada's leading construction contractor and one of North America's most prolific healthcare construction providers. PCL has completed more than 650 health care projects of all sizes with totaling over \$7.4 billion. Examples of recent healthcare projects include the Abbotsford Regional Hospital and Cancer Centre, the Gordon and Leslie Diamond Health Care Centre, the Ambulatory Care Expansion at the Women and Children's Hospital in Vancouver, the Ottawa Hospital Regional Cancer Centre, the Queensway Carleton Hospital Cancer Centre, the Niagara Health System New Health-Care Complex and Cancer Centre in St. Catharines, Bridgepoint Hospital in Toronto, the North Bay Regional Health Centre, and the Credit Valley Hospital Expansion and Regional Cancer Centre in Mississauga.

Design

Design services are being provided by CEI Architecture Planning Interiors. CEI is a full service architecture firm with over 20 years of experience. Their extensive healthcare planning expertise is based on global best practices in lean design and sustainability, and encompasses the full range of healthcare buildings including comprehensive cancer care, long-term care, hospitals, and more. CEI's work on healthcare facilities includes the Cancer Centre for the Southern Interior, the Robert H. N. Ho Research Centre (with MCMP Architects), the Prince Rupert Complex Care Facility, and the Victoria General Hospital Emergency Department Redevelopment.

Facility Management Services

Johnson Controls is a leader in facility management services and the development, integration and installation of building automation systems and controls. Johnson Controls have committed to a highly efficient delivery model for the long term management of the core building systems. Johnson Controls' recent experience includes the Abbotsford Regional Hospital and Cancer Centre, the Gordon and Leslie Diamond Health Care Centre, the Niagara Health System New Health-Care Complex and Cancer Centre in St. Catharines, Bridgepoint Hospital in Toronto, the North Bay Regional Health Centre, the Royal Inland Hospital in Kamloops, and the St. Johns Rehabilitation Hospital in Toronto.
