## ENTERPRISE 8000 HOSPITAL BED

### **Inspired design can be refreshingly simple!**

The new *Enterprise*® 8000 bed is the latest general use hospital bed in the *Enterprise* range. The new design may offer both caregiver and patient benefits in the key areas of safety, clinical efficacy and ease of use.

A well-designed hospital bed can offer significant advantages. These include enhanced safety, increased patient

independence and improved efficiency.

A hospital bed needs to be as user friendly as possible, enabling the caregiver time to concentrate on their patient.

*Enterprise* 8000 bed is easy and intuitive to use, thanks to clear, simple icons and controls designed to make the operation of bed functions as straightforward as possible.

...with people in mind

## KEY FEATURES

### 2 3 Step Bed Extension

Different bed lengths are now easily configurable in a single sub-frame, offering a simple to use, multi-length hospital bed for greater flexibility and choice.

### 3 Underbed Light

Underbed lighting fitted under both sides of the bed helps to improve patient safety and security, by illuminating the bed exit area.

### 4 Ease of Access

The open architecture design allows ease of access to help improve decontamination procedures. Deck sheets are lightweight, smooth and easily removed.

### 1 Curved Mattress Deck

The patented *Bio-Contour* profiling system blends a unique combination of bed movements with a curved mattress deck.

Enterprise 8000 bed also has an extensive offering of accessory items, which both complements the bed and provides additional benefits for patients and carers. Please contact your local ArjoHuntleigh representative for further details.

**5 Pit Stop Maintenance**

Designed for 'Pit Stop Maintenance' - open accessibility means changes such as actuator, control box and battery can be carried out in situ within a few minutes by one person.

**6 Attendant Control Panel**

All new One-Button-Push control panel with updated graphics and layout for intuitive ease of use. Features auto-CPR and auto lock-out.

**7 Cardiac Chair Position**

The caregiver can easily adjust the bed into a cardiac chair position with our simple to use control panel.

**8 30 Degree Backrest Angle**

The backrest will pause when raised to an angle of 30 degrees, ensuring easy and positive back-rest adjustment time after time.

**9 Low Height**

An exceptional low height of 12.5ins (320mm) is achieved via One-Button-Push.

# PRODUCT SPECIFICATIONS

FEATURES		
Electrically operated backrest, knee-break and height adjustment	•	
Electrically operated Trendelenberg / Reverse Trendelenberg tilt	±12°	
Split side rails with intergrated controls	•
