Ministry of Transportation

GATEWAY PROGRAM ISSUES REQUEST FOR QUALIFICATIONS

VICTORIA – The Ministry of Transportation’s Gateway Program has issued a Request for Qualifications (RFQ) to identify companies capable of undertaking a design/build contract for the Pitt River Bridge/Mary Hill Interchange project.

The Pitt River Bridge/Mary Hill Interchange is a component of the North Fraser Perimeter Road. The project includes a new high level bridge across the Pitt River, replacing the two existing swing bridges and a new interchange at the Lougheed Highway and the Mary Hill Bypass in Port Coquitlam.

The design will include bike lanes across the bridge, and the bridge will be engineered to accept light rail transit at a later date. The project is nearing completion of its environmental assessment.

The RFQ is the first stage of a two-stage procurement process. A shortlist of up to three design/build proponents will be identified through the RFQ. Only qualified bidders will be invited to submit a proposal to design and build the Pitt River Bridge/Mary Hill Interchange commencing later this year. The RFQ closes April 5.
