

# Fluoroscopy Stretcher

Ease of Imaging

**Access, functionality and safety** are the hallmarks of the Stryker Fluoroscopy Stretcher. This specialty platform features full-length C-arm capability and fold-down siderails for maximum access, while dual-end hydraulic foot controls allow you to easily raise and lower the patient surface.

**Dual pneumatic backrest improves imaging access.**

**U-shaped base and full-length C-arm access** enhance imaging capabilities

**Fibersin pneumatic backrest at both ends** helps reduce need to reposition patient

**Siderails fold down and out of the way** for improved access

**Accessory rail** accommodates surgical attachments

**Four-wheel brake system** helps secure treatment platform
