Attenda® Sleigh Bed

The Attenda Sleigh Bed introduces contemporary design for a more residential, normalized appearance without sacrificing advanced construction for intensive-use applications in healthcare environments. Ideal for geriatric patients, the higher sleep surface makes it easier to administer to patients while the raised bed deck easily accommodates a patient lift device. Available with or without drainage holes.

Harmony™ High Back Chair

Highly durable polyurethane arm caps are one piece, full length, pick resistant and securely bolted to steel frame.

Comfortable lumbar support and ergonomically correct style for comfort and easy egress.

Generous seat width and cushioned support provide comfortable lounging.

Robust fully welded steel frame for maximum strength and durability.

Injection molded nylon feet are engineered for strength and to protect floors.

Attenda® Platform Beds

The cornerstone of the collection is the Attenda Bed — designed and engineered to exceed the expectations of practitioners who have tried everything. The Attenda Bed mounts in a corner, against a wall or free standing. Sturdy and seamless, the Attenda Bed features a raised lip around the bed deck for easy clean-up. An optional wall-mount headboard adds a touch of wood-grained style, with institutional durability.

Attenda® Platform Bed Riser

Free standing or floor mounted bed riser designed to pair with the Attenda Floor Mount Bed for staff friendly bed height, easy patient egress and convenient use of a patient lift device. Optional riser raises 15" sleep surface an additional 8" and features a knock out access port and push cap for ballasting in free standing applications. Bed fastens securely to riser at the existing anchor locations of the bed (tamper-resistant connecting hardware included). Pairs with ATN100 or ATN101 beds (retrofit capable). Available in Moss or Fossil colors.

NEW Outdoor Furniture

Do you want the innovative designs, aesthetically pleasing looks and eye-popping colors of Wink™ and RockSmart™ not only for your indoor spaces but for outdoor seating areas as well? Norix Furniture has designed and specially formulated outdoor versions of each of these products to withstand the bright shine of the sun and soaking waters of rainy days. We have taken durability and dependability up a notch with these two products without compromising the fun and lively forms of both of these chairs.

RockSmart™

RockSmart is a contemporary rocking chair designed from the ground up for soothing comfort, exceptional durability and aesthetic appeal. Its signature one-piece shape, featuring daring curves and clean design lines, was created for a calming, safe and comfortable rock. Our ultra-modern rocker is rotationally molded out of specially formulated, high-impact polyethylene with ultraviolet light stabilizers to reduce fading. This premium TruColor™ material is fully compounded for superior color and quality assurance. It's also highly fluid resistant and features a lightly textured surface that allows for easy cleaning. And it's ... well ... really cool!

Wink™ Frame

Our Wink Lounge Chair features a sturdy, one-piece rotationally molded polyethylene frame with ultraviolet light stabilizers to reduce fading. This premium TruColor™ material is fully compounded for superior color and quality assurance. It's also highly fluid resistant and features a lightly textured surface that allows for easy cleaning.

Seat and Back

Wink cushions are equipped with sturdy, marine grade plywood that is sealed and does not absorb water. To boot, the chair features open cell, outdoor grade foam that allows water to drain from the foam, making it anti-microbial and anti-fungal and ... well ... dry!

Upholstery

Our upholstery options look good while weathering the strains of changing climates. Select from different patterns, colors and materials – all of which are bleach solution cleanable, breathable and UV/water/mold/mildew resistant.

TruColor™

Premium material is fully compounded for superior color and quality assurance.

Molded polyethylene frame with ultraviolet light stabilizers is highly fluid resistant.

Marine grade plywood is sealed and does not absorb water.

The seat features a side wipeout and back cleanout for easy cleaning.

Upholstery is bleach solution cleanable, breathable and UV/water/mold/mildew resistant.

Molded-in access port with threaded screw cap for ballast weighting capability.

Smooth, continuous molded surface allows for easy cleaning.

Stainless steel hardware.

Hilltop Outdoor

A complete line of behavioral health outdoor furniture — tables, benches and trash containers. Hilltop Outdoor Series can be bolted down for safety and has a pick proof bonded vinyl coating. 12 gauge steel legs and bracing. Perforated steel tops are U/V stabilized — water drains away. Ideal for outdoor recreation areas, visitor pavilions and staff break areas.

Quality You Can Count On

Get it and forget it! All Hilltop Series products have been outdoor tested in the extremes of icy northern winters to the intense heat of the Southwest to the salt air of the oceans. The machine perforated 14-gauge steel tops and seats have a smooth UV-stabilized vinyl coating bonded to the steel that is impervious to both bad weather and constant use. Water drains through and the coating keeps the seat and tops from corroding and getting too hot in the sun. The machine perforations are smoother and provide a better fit than expanded metal. The legs and bracing are both 12-gauge steel and all fasteners are tamper-resistant and corrosion-resistant steel. The frames are coated with a smooth UV-stabilized vinyl coating.

Put Where You Want

You can use Hilltop Tables, Benches and Trash Containers both indoors and out. Lobbies and visiting areas, locker rooms, food service areas, outdoor recreation areas, visitor pavilions ... anywhere you want attractive casual furniture with no worries about spills, bad weather or intensive-use.

Pick A Spot, Pick A Size

Hilltop products come in a variety of sizes for most applications. Square and rectangle tables, including a model for ADA applications. Six foot and eight foot benches that can be surface mounted, in-ground mounted or portable. Trash receptacles that look just as good inside as out. Outdoor healthcare furniture. You can count on Norix.

Attenda[®] Bed & Restraint System

Our Attenda Beds are made of rotationally molded, specially formulated, fire-retardant, high-impact polyethylene. The beds can be equipped with an 8 1/2" riser that allows staff to use a lift device to move patients. For extra security, Norix offers an optional restraint bed conversion kit that consists of six heavy-duty restraint rings that mount through the bed and bolt to the floor.

Safehouse[®] Bed & Restraint System

Our Safehouse Beds have the therapeutic qualities that come with real wood products. These beds are made of 3/4" plywood with natural hardwood veneer and impact resistant PVC edge banding. For extra safety, Safehouse Beds can be equipped with a restraint bed conversion kit that consists of eight heavy duty D-rings that mount through a 3/4" solid hardwood veneer panel.
