

Infrastructure BC – Assistant Vice President

Company

With offices in Vancouver and Victoria, Infrastructure BC supports the public sector by providing leadership in the procurement of complex capital projects.

Infrastructure BC works to improve the lives of people and communities in British Columbia by acting as an interface between public sector entities and private sector companies in the procurement and delivery of complex capital projects. Not only do the infrastructure projects improve the day-to-day lives of residents, they also contribute to local job creation and support a strong and sustainable economy.

Position

In Budget 2020, the Government of British Columbia committed \$22.9 billion in infrastructure spending, the highest capital spending in B.C.'s history. Infrastructure is a crucial part of the B.C. Government's plan to keep B.C. moving ahead. An unprecedented number of significant and complex infrastructure projects have been approved to build hospitals, schools, and improve our transit systems and highways to address the needs of our growing province. Due to this increased demand, this is a critical time for Infrastructure BC to appoint two new Assistant Vice Presidents (AVP).

Reporting to a Vice President, AVP responsibilities are to:

- Lead the development of complex business cases; procurement processes; negotiations and implementation with accountability for all aspects of project delivery;
- Proactively address project challenges.
- Provide leadership and guidance to project staff to achieve deliverables and meet client expectations.
- Strengthen client and stakeholder relationships with a lead role in building and maintaining strong, long-term relationships with clients to ensure a high level of client satisfaction.

Candidate

This individual will be a strategic thinker with outstanding business acumen who leverages past experiences, well-honed listening skills, keen judgment, patience, and intuition to work effectively within a complex business environment. They will be an exceptional relationship builder, with a proven ability to identify opportunities, and possess the tenacity to realize them in the pursuit of successful results. This person will thrive in an entrepreneurial, collaborative, performance-driven environment.

Requirements:

- Senior project management experience in the planning, procurement and implementation phases of large, complex infrastructure projects, preferably in a public sector environment
- Experience leading large, multi-disciplinary teams
- Senior client relationship management experience
- Exemplary writing and presentation skills

Applications are encouraged immediately and should be submitted online at
